Draft Final Supplemental Environmental Assessment for  
Disposition of the Defense Fuel Support Point (DFSP) Newington,  
New Hampshire**

**Disposition of the Defense Fuel Support Point (DFSP) Newington, New Hampshire** – A Supplemental Environmental Assessment (SEA) has been prepared for the DFSP Newington Facility. The SEA assesses known, potential, and reasonably foreseeable environmental consequences related to disposition of DFSP Newington. The analysis considered potential effects of the Preferred Alternative and the No Action Alternative on air quality and climate; noise; geologic resources; water resources; wetlands; biological resources; land use; human health and safety; utilities and infrastructure; hazardous materials and waste; socioeconomic resources and environmental justice; and cultural and visual resources.

Copies of the Draft Final SEA and the proposed Finding of No Significant Impact (FONSI)/Finding of no Practicable Alternative (FONPA) are available for review now at the web address:
